

I have never before written to the FCC but I am doing so now because I am concerned about Sinclair broadcasting using the public airwaves to influence the upcoming election. I am of course referring to the airing of "Stolen Honor" directly before the elections. I feel that if they are broadcasting something so blatantly anti-Kerry, then at least they should also show something to balance this. I am also unhappy about the centralized control of local stations. I do hope that you will listen to your citizens regarding this matter.

Sincerely,
Katherine Whaley
